EUROPEAN
COMMISSION

Ministero del Lavoro
e delle Politiche Sociali

The main objective of the project is to re-think the planning-organizational abset of health and social care policies for elderly and disable people in frail condition.

AIDA project is in line with the italian national strategies and is inspired by the European open coordination method, ***focusing on the detection and activation of new solutions based on health and social integration processes.***

Advancing Integration for a Dignified Ageing

aida progetto

FIRST PHASE: ANALYSIS OF NATIONAL CONTEXT

*Sintesis of organizational models of the
Italian Districts*

Analysing the health, social and health/social interventions for people in frailty condition

Elderly and planning strategies in health

It describes national and international scenarios of elderly population and in particular referring to not self-sufficient population, their health and social conditions

*Report about social and health
interventions of the Italian District*

It describes the interventions in favor to non self-sufficient people together with and analysis of efficiency/efficacy costs of different organizational models of districts

Analisis of Italian good practices

Best practices, at regional level, regarding hospital discharge and the transition to home or residential care

EUROPEAN
COMMISSION

SECOND PHASE: *ANALYSIS OF EUROPEAN CONTEXT*

*Ministero del Lavoro
e delle Politiche Sociali*

Selection and analysis of European Best practices

Description of 10 most important best practices on continuity and quality of long term care, taking into account the pertinence of home and residential care assistance

... In order to find innovative solutions/perspectives for the National Guidelines...

EUROPEAN
COMMISSION

THIRD PHASE: THE HEALTH AND SOCIAL GUIDELINES

*Ministero del Lavoro
e delle Politiche Sociali*

Identification of an **Inter-regional Coordination Group** for the definition and elaboration of the *National Guidelines for Social and Health Integration targeted for elderly and disable people in frail condition*

Advancing Integration for a Dignified Ageing

aida progetto

THIRD PHASE: THE HEALTH AND SOCIAL GUIDELINES

- **Identification of Health and Social District where to test the Guidelines**
- **Training seminars for the management of the Guidelines at district level**
- **Implementation of the Guidelines at district level**

6 Districts have been selected for the experimentation of the Guidelines: 3 of the Liguria Region territory (**Genova Levante, Chiavari, La Spezia**) and 3 of the Veneto Region area (**Padova, Feltre e Asolo**). Several preliminary meetings have been organized for the discussion about the Guidelines and the implementation path. Those meetings allow the collection of a set of recommendations and feed-back useful for the implementation and experimentation of the Guidelines

WHAT DOES “DISTRICT” MEAN?

District as the privileged tool for the management and coordination of organizational and functional network of health and social services and community health, as authority for the government and production-delivery of care services.

Center of reference for citizens and the place of the OPERATIONAL INTEGRATION BETWEEN THE HEALTH AND SOCIAL INTERVENTIONS, performing activities as:

- HEALTH CARE: primary care, home health care, outpatient specialist departments, residential and semi-residential rehabilitation;
- SOCIAL AND HEALTH CARE: when patient needs health services and social protection measures (tutor, financial support, social assistance);
- DEMAND MANAGEMENT: citizens’ guidance activities (information, administrative procedures) and needs and demand analysis
